Features

- For outstanding fabric quality with low energy consumption
- Simple, intuitive machine operation
- Network interface for the protection of intellectual property (patterns) and implementation of the 4.0 industry strategy

Advantages

- Intelligent machine lighting facilitates fast repair of warp and weft breaks
- Improved operational reliability
- Outstanding, low-wear weft insertion system
- Storage of machine parameters together with the pattern file

Applications/Options

- Woven labels with individual codes, individual numbering and photo-like posters
- MUCAD design software license for programming patterns with individual codes, individual numbering, photo-like posters
- mymuenet® for digitising the weaving room with direct access to the machine control system to optimise production efficiency
- mymueller® – your online service portal

Benefits

- Simple machine programming, high flexibility, short change-over times
- Optimum accessibility and usability
- Intuitive machine operation
- Network ready connectable to mymuenet®, the production data acquisition system with direct access to the machine control

Technical Specifications

Width (max.) [mm]	1380
Working width (max.) [mm]	1346
Shedding motion	LXL PRO 8192
Harness-type	Taffeta
Harness-variations [mm]	1 x 1266T
Weft insertion	Rapier system
Number of weft colours	4-12
Pattern programming	MÜCAD pattern and programming system
Production data acquisition system	mymuenet®

All options from the MBJ8v platform available.
