

# Table of contents

<b>1.</b>	<b>Introduction</b>	<b>7</b>
2.	Raw materials for the narrow fabrics textile industry	9
2.1	Introduction	9
2.2	Spun yarns	9
2.3	Continuous filament yarns	10
2.3.1	Polymer formation	12
2.3.2	Selected types of continuous filament yarn	12
2.3.3	Textured continuous filament yarns	14
2.3.4	Microfilaments/microfibres	17
2.4	Folded yarns and ply yarns	18
2.5	Rubber (elastodiene)	20
2.6	Elastic yarns	21
2.6.1	Elastane	21
2.6.2	Elastic monofilament	22
2.7	Selected combination yarns	22
2.7.1	Core yarns	22
2.7.2	Elastic ring-spun yarns	26
2.7.3	Elastic double twist yarns	26
2.7.4	ElastoTwist® yarns	27
2.7.5	Covered yarns	27
2.7.6	Air-jet entangled continuous filament yarns	28
2.7.7	Uniplex™ yarns	30
2.7.8	Wrapping of elastic yarns	31
2.8	Fineness systems, fibre, yarn and plied yarn designation	32
2.8.1	Introduction	32
2.8.2	Length numbering	32
2.8.3	Mass numbering	33
2.8.4	Conversion of yarn numbers	34
2.8.5	Fineness of monofilament yarns	36
2.8.6	Fineness of rubber threads	37
2.8.7	Fineness and designation of folded and filament yarns	38
2.8.8	Fibre designations	40
2.8.9	Calculation examples	41
2.8.9.1	Length numbering system	41
2.8.9.2	Mass numbering	42
2.8.9.3	Tape calculation	44
2.9	Identifying raw materials	47
2.9.1	Introduction	47
2.9.2	Classification of fibres	47
2.9.3	Sampling	48
2.9.4	Sample preparation	48
2.9.5	Burning test and dry distillation	49
2.9.6	Stain test	51
2.9.7	Special pre-tests	52
2.9.8	Microscopic examination	52
2.9.9	Macroscopic examination	55
2.9.10	Indicators for fibre identification	57
<b>3.</b>	<b>Overview of preparation processes for weaving and knitting</b>	<b>59</b>
<b>4.</b>	<b>Winding</b>	<b>61</b>
4.1	The role of winding	61
4.2	Bobbin types and shapes	62
4.2.1	Flanged bobbins	62

4.2.2	Crosswound bobbins	63
4.3	Glossary of winding process terms	67
4.4	Structure of a crosswound bobbin	69
4.4.1	Winding durability / stability	69
4.4.2	Random winding	69
4.4.3	Precision winding	70
4.4.4	Step precision winding (DIGICONE)	70
4.5	Malfunctions, tensile forces in the yarn, winding densities	71
4.6	Winding machines	73
4.6.1	Random winding machines	73
4.6.2	Machines for precision and step precision winding	74
<b>5.</b>	<b>Warp production</b>	<b>76</b>
5.1	Introduction	76
5.2	Production calculation	77
5.3	Warp production – basic principles	79
5.3.1	Sectional warping	79
5.3.2	Warping	82
5.4	Warping in narrow fabric production	84
5.4.1	Bobbin creel	85
5.4.1.1	Task	85
5.4.1.2	Normal creel for non-elastic yarns	85
5.4.1.3	Rotating frame creels	87
5.4.1.4	V-creel	87
5.4.1.5	Unrolling creels	88
5.5	Thread brakes	89
5.5.1	Types of thread brakes	89
5.5.2	Simple disc brake	89
5.5.3	Double disc brake	91
5.5.4	Compensating brake	92
5.5.5	Dynamic thread brake – roller brake	93
5.5.6	Friction brake	93
5.6	Warp stop motions	94
5.7	Warping machine	94
5.8	Productivity during warping	98
<b>6.</b>	<b>Machine set-up</b>	<b>99</b>
6.1	Introduction	99
6.2	Drawing-in	101
6.3	Knotting	101
6.4	Quick Style Change	103
6.5	Summary	104
<b>7.</b>	<b>Finishing narrow fabrics</b>	<b>105</b>
7.1	Introduction and scope	105
7.2	Preparation	106
7.3	Dyestuffs and their uses	107
7.4	Dyeing systems	108
7.4.1	Discontinuous dyeing systems	109
7.4.2	Semi-continuous dyeing systems	110
7.4.3	Continuous dyeing systems	110
7.5	Printing machinery and equipment	114
7.6	Coating machines	117
7.7	Special processes / finishes	121
7.8	Dyeing processes and sample recipes	123
7.8.1	Spin Dyeing	123
7.8.2	Discontinuous (batch) dyeing	123
7.8.3	Continuous dyeing	130

7.9	Conclusion	134
<b>8.</b>	<b>Packaging of narrow fabrics, ribbons, belts, cords, braids, threads, etc.</b>	135
8.1	Introduction and scope	135
8.2	Fault detection and quality control	135
8.2.1	Overview	135
8.2.2	Fault marking	137
8.2.3	Fault information flow	138
8.2.4	Types of fault	138
8.2.5	Inspection systems for narrow fabrics	138
8.3	Laying, bundling, winding and measuring	141
8.3.1	Ribbon laying	141
8.3.2	Making-up in bundles	142
8.3.3	Winding onto cards	143
8.3.4	Winding onto bobbins	144
8.3.5	Winding onto rolls	145
8.3.6	Combined machines	146
8.4	Making-up of labels	148
8.4.1	Online cutting on the loom	148
8.4.2	Offline ultrasonic cutting	149
8.4.3	Cutting and folding	150
8.5	Conclusion	152
<b>9.</b>	<b>Index</b>	153
