

Short List: Semi-automatic measuring and winding machine, Type HW R/S

For the make-up of elastic and non-elastic tapes, braids, cords, trimmings and laces in various forms

Type	HW R/S
Year of manufacture	2022
Rolls	Exterior-Ø: D = max. 400 mm Fabric width: b = 10 - 100 mm
Spools	Flanges-Ø: D = max. 250 mm Length: L1 = max. 300 mm Fabric width: b = 0.5 - 25 mm
Guides for tapes of width	10 mm, 12 mm, 15 mm, 20 mm, 25 mm (or on request)
Additional equipment	Disentangling device Mechanical tape fault detector CENSOR Mechanical redirecting brake Transporting cylinders on the measuring device, with adjustable revolution controlled by frequency converter
Voltage	3x 400V, 50Hz, with neutral conductor (or on request)
Availability ex Jakob Müller Germany,	appx. 12 weeks
